<b>Additional Backup Information</b>				

This contract provides for repair parts for Penn Valley pumps for the Austin Water Utility. These repair parts consist of items such as drive shafts, bearings, gaskets and rings. They are ordered on an as needed basis and technicians at the Hornsby Bend Biosolids Management Plant use them to repair pumps that support the sludge pumping process. Sludge is turned into compost and is applied on permitted land in the Webberville area.

This contract was awarded as a sole source in 2007 for a 24-month base period in an amount of \$48,000 with three 12-month extension options. Amendments number 1 and 2 exercised the first and second 12-month extension options respectively, in the amount of \$24,000 each. This recommended Council action is to approve Amendment No. 3 for \$24,000 for the final 12-month extension option, for a final contract value of \$120,000.
